

Do NOT stop regulating broadband service!!! I support a local ISP, I get excellent service (unlike those who have to deal with the large companies and voice mail) and it is still affordable. I strongly believe in supporting local business because I am a business owner myself. I will lose this opportunity if the FCC quits regulating broadband, making it too expensive to remain independent and thereby giving it all away to the big corporations.  
PLEASE DO NOT STOP REGULATIONS THAT KEEP SMALLER AMERICAN BUSINESSES VIABLE!!!
